

Capture the essence of the urban cowgirl with the Aspen Tunic. This design features a large front and back yoke with a rounded neckline and a slightly raised elasticized waist for a comfortable, customizable fit.

Choose from multiple variations such as a continuous or buttoned front yoke, short or long sleeves, tunic or above knee length skirt. The hem can be finished with a simple bias or a flirty ruffle. Choose one fabric or a group from a favorite line of fabrics to express your unique style. Don't overlook border prints, beautiful cotton lawn/voile, or rayon for this design as they stitch up beautifully!

This design also lends itself well to the addition of hand embroidery or appliqué. We have paired it up with our new stitchery patterns, *Birds in Flight* and *Cottage Roses!* See the inside photos for design inspiration.
